Hi Joe-

Honestly, most of the cases we are on call for in Springfield don't go, so I don't want you to feel obligated to change what you were planning on doing. And I did learn of your case first (Jan. 31<sup>st</sup> vs. March 23<sup>rd</sup>), so I do feel like you should have priority (plus, I prefer Pittsfield over Springfield). So if you want me there, just let me know. Or, if you wanted, I could just be on call for you as well, and then do the first-call, first-serve thing. As for my doctor's appt. in Northampton at 4:15, as long as I left Pittsfield by 2:30-2:45, I should be able to make it. Just an option...

Thanks.

Sonja, thanks for all your flexibility on this case, but please don't worry about coming up to Pittsfield on 4/6. I will try to work out the case, or move it if I need to. But it doesn't make sense for you to come all the way up here when you need to be in Springfield and Northampton during the day. So thank you so much, but don't worry about coming out.

I'll let you know how the case works out.

I hope you have a great weekend.

Joe

Hi Joe-

I'm forwarding you the response I received to my email from the Springfield ADA. Probably the safest thing to happen would be for me to be in Pittsfield early (whether it be when court opens or even at a set time (i.e. 10 or 10:30), and then shoot to Springfield afterward if needed. I know that I may end up in Pittsfield and not need to testify, but I'd rather do that than to possibly not get on the stand until after lunch and miss my doctor's appointment. If you wanted me there at 10:00 or 10:30 and found out earlier that morning that I will not be needed, you could always call my cell and I could turn around. Hope this helps.

Hey, Sonja. Regrettably, I don't have any new information to report. However, as I mentioned before, because counsel isn't the most vigilant and, also, I believe [REDACTED] had a serious Worcester case that should have come to disposition by now, he might look to plead to something concurrent. In any event, I'll make sure that we work around your schedule; in the event of a trial, I'll report to the court that you have a commitment and we'll be sure to work it out. Sorry I can't give you more concrete info, but I'm pretty sure we'll be ok. Thanks again. Let me know if there's anything else I can do.

Tony

Hi Tony-

I'm wondering if there have been any changes in the [REDACTED] case scheduled for trial on April 6th? I'm curious as I have previously been summonsed to a case in Pittsfield that day and I told the ADA there that I would try to find out. The tricky part is that I also have a doctor's appt. at 4:15 in Northampton that day. Originally I had planned on being in Pittsfield early, and if the case went, the ADA was going to make sure he got me on before lunch to make sure I got back in time. I could ask him if he could make sure I went first, and then head back to Springfield to testify for you if needed. Even if I couldn't get on the stand until after lunch (up to about 3pm) in Springfield, I should still be able to make it back to Northampton for my appointment. Any information you could provided would be greatly appreciated. Thanks.

-Sonja
